The average yield of wheat per acre is the best for many seasons--in a few instances up to 20 and 27 bushels per acre were stripped. The hay crop (wheaten) this season has been very good in many instances, up to and 3 tons per acre were cut off fallow land. I might state that this season s returns show a big increase in fallow land throughout this district. The wool clip this season has been an exceptionally good one, but the lambing has been very poor, and some very heavy losses have been reported. Poultry-raising in this district is thriving, and the farmers are very fortunate in not having the tick pest to contend with. Fruit growing is on the increase, and there are several young orchards coming on. All stock throughout this district are looking splendid and are on the increase. Mt. Barker. Constable T. Mulkerin: -- I beg to report having completed the collection of Stock and Crop Statistics for the season 1912-13 in the Mt. Barker District, which includes areas 436, 437, 444, 445, 446, 447, and 450. The settlers in these these areas go in principally for mixed farming, which they find to be the most profitable. The past season was in general satisfactory, the only exception being the percentage of lambs, which was below the average for previous years, settlers giving as the reason for this the prevalence of dry weather during last year.
