### ***Reviews***

*This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

## NATURALISM AND RELIGION

Createspace Independent Publishing Platform, United States, 2013. Paperback. Book Condition: New. 279 x 216 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Naturalism is the view that every law and every force operating in the universe is natural rather than moral, spiritual, or supernatural. Naturalism is inherently anti-theistic, rejecting the very concept of a personal God. Many assume naturalism therefore has nothing to do with religion. In fact, it is a common misconception that naturalism embodies the very essence of scientific objectivity. Naturalists themselves like to portray their system as a philosophy that stands in opposition to all faith-based world-views, pretending that it is scientifically and intellectually superior precisely because of its supposed non-religious character. Not so. Religion is exactly the right word to describe naturalism. The entire philosophy is built on a faith-based premise. Its basic presupposition-an a priori rejection of everything supernatural-requires a giant leap of faith. And nearly all its supporting theories must be taken by faith as well. Consider the dogma of evolution, for example. The notion that natural evolutionary processes can account for the origin of all living species has never been and never will be established as fact. Nor is it scientific in any true sense of the word. Science deals with what can be observed and reproduced by experimentation. The origin of life can be neither observed nor reproduced in any laboratory. By definition, then, true science can give us no knowledge whatsoever about where we came from or how we got here. Belief in evolutionary theory is a matter of sheer faith. And dogmatic belief in any naturalistic theory is no more scientific than any other kind of religious faith. Modern naturalism is often promulgated with a missionary zeal that has powerful religious overtones. The popular fish symbol many...
