A Modern Approach to Computer Systems for Linear Programming (Classic Reprint)

By Robert Fourer

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from A Modern Approach to Computer Systems for Linear Programming Popular computer packages for linear programming do not differ much in concept from ones devised ten or twenty years ago. We propose a modern LP system one that takes advantage of such (relatively) new ideas as high-level languages, interactive and virtual operating systems, modular design, and hierarchical file systems. Particular topics include: computer languages that describe optimization models algebraically; specialized editors for models and data; modular algorithmic codes; and interactive result reporters. We present specific designs that incorporate these features, and discuss their likely advantages (over current systems) to both research and practical model-building.
