Reviews

This publication will be worth purchasing. It really is written in simple terms instead of difficult to understand. It has been designed in an exceptionally simple way and is particularly only right after I finished reading this ebook in which basically modified me, alter the way I believe.

Not illustrated. 1914 Excerpt: . . . amount of time that students were required to spend in preparation and class work. Under the poor housing conditions of the High School, it has for many years been the policy to allow students to leave at both morning and afternoon sessions at the close of their recitation work. Preliminary to this investigation, it was found by inspecting the programs that about ten per cent of the students were required to put in but five fortyfive minute periods per day, and more than fifty per cent were not required to put in more than six periods per day. This suggested that it was highly probable that there was an excessive amount of home work in many cases because of the low average amount of time in school. The problem was thus reduced to one of determining the total time of preparation, and an adjustment between school preparation and home preparation, if the results of the study warranted it. The method employed was that of the questionnaire, one of which was submitted to each student in the High School, and another to the teaching force. The former list was submitted to all students at the same time and was required to be answered at once. The list submitted to the teachers covered a weeks work. The following are the essentials in the students list relating to individual subjects: Name Date Answer ALL of the following questions as accurately as you can. Answer all time questions in minutes...
